No. G.C 450. Dated 8/7.21. Received 9.7.21.

Diary No. 245	Enclos. –	Spare Copies. –	Serial No. 2

BRIEF ABSTRACT OF LETTER.

Submits his proposals to admit about 50 private students in the Medical School, requests sanction for the entertainment of an additional Demonstrator on an allowance of Rs 50 p.m. & the increase of Chemistry Lecturer's allowance from Rs 25 to Rs 75 as already requested, and states that as it will be necessary to have a temporary shed to increase the accommodation for dissection, the Ex. Engr has been requested to expedite the preparation of a plan & an estimate for the same.

NOTES AND ORDERS.

The question of increasing the Science Lecturer's allowance from Rs 25 to Rs 75/- was ordered to be considered at the Budget time and the matter was subsequently ordered to be deferred: Vide orders on page 6 of file No. 27 of 1920-21. Submitted for orders.

The office note dated 4.2.21

2 The receipt of a plan & estimate re a temporary shed for dissection referred to in P.N. 1 will if approved, be awaited.

Sir,

I have the honour to state that many of the candidates who had applied for admission into the Local Medical School with scholarship, but who hauld not get the scholarships, have come forward to join the institution as private students. -- From the names so far registered, about 50 are likely to join- at all events the number will not fall short of 40 and I consider this opportunity as too good to be lost for popularising the institution and for making it self supporting. I therefore propose to admit about 50 private students including -- about half a dozen candidates from outside.

2. With the present accommodation and staff, however, it is not possible to admit more than 25 or 30 students (including stipendiaries) without sacrificing the efficiency of the -- training. In practical anatomy and dissections, in particular, the students ought to receive individual attention. It is therefore necessary to entertain an extra Demonstrator on an allowance of Rs.50/-.p.m Chemistry and Physics being also practical sciences the work devolving on the lecturer in these subjects will greatly increase. In this connection, I beg to invite attention to the correspondence ending with my letter No.C.732-10 dated 28th April 9 1921 (Medical File No.27 of 1920) wherein I have urged the necessity of increasing the allowance of the Science Lecturer from Rs.25/- to Rs.75/- as in the cases of the other Lecturers. Now that his work will be more
